House Resolution 371

By: Representatives Glanton of the 76th and Baker of the 78th

A RESOLUTION

- 1 Recognizing and commending the Clayton County Water Authority and inviting them to
- 2 appear before the House of Representatives; and for other purposes.
- 3 WHEREAS, the Clayton County Water Authority (CCWA) in Atlanta, Georgia, has achieved
- 4 great success in the area of water management and continues to meet the water needs of the
- 5 citizens of Clayton County even during drought conditions; and
- 6 WHEREAS, the CCWA has implemented a total watershed management (TWM) approach
- 7 to water management which integrates management of watersheds, water supply resources,
- 8 effective land-use practices, and other available resources to provide enough water while
- 9 considering equitable economic and social issues; and
- 10 WHEREAS, the innovative TWM approach utilized by the CCWA is one of the most
- 11 successful water and wastewater planning models in the state; and
- 12 WHEREAS, despite the rapidly increasing population in the area of Clayton County and the
- 13 limitations on water supply due to weather and changes in land use, the CCWA has been able
- 14 to maximize the area's limited water supply, maintain compliance with stringent federal and
- state regulations, and increase customer service at a reasonable cost to CCWA customers;
- 16 and
- 17 WHEREAS, the use of six TWM principles by the CCWA has been instrumental in the
- authority's progress and includes defining the goals and objectives of the TWM plan,
- 19 collecting and analyzing data to support the development plan, evaluating and selecting
- 20 alternatives to be analyzed during the planning process, selecting models to perform the
- 21 TWM analysis, conducting impact assessments on the plan and including stakeholder
- 22 involvement, and developing an implementation plan, monitoring results, and establishing
- 23 an institutional framework; and

09 LC 94 0726

24 WHEREAS, as a result of the CCWA's aggressive use of TWM, the authority maintained a

- 25 water supply in its surface water reservoirs in excess of 200 days throughout the most
- 26 extreme periods of drought seen by this state; and
- 27 WHEREAS, currently, the CCWA plans to expand its constructed wetlands system to allow
- 28 for a large boost in capacity and ensure the creation of a drought-proof system for the county;
- 29 and
- 30 WHEREAS, over the past two years, the CCWA has demonstrated that the TWM approach
- 31 to water management allows utilities to protect and sustain the state's most valuable asset,
- 32 water.
- 33 NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES that
- 34 the members of this body commend the Clayton County Water Authority on its remarkable
- 35 implementation of the total watershed management principles and invite them to appear
- 36 before the House of Representatives at an appropriate date and time to be designated by the
- 37 Speaker of the House.
- 38 BE IT FURTHER RESOLVED that the Clerk of the House of Representatives is authorized
- 39 and directed to transmit an appropriate copy of this resolution to the Clayton County Water
- 40 Authority.
